

LUND
UNIVERSITY

Meet the experts

ICCCPO symposium, 7 Oct 2012
SIOP London

Lars Hjorth, M.D., Ph.D., Consultant Paediatric Oncology & Haematology
Skåne University Hospital/Lund University,
Lund, Sweden

How do survivors and their families handle the information we give about late effects that sometimes can be life-threatening even if they are rare?

For example –

- The risk of second cancer after radiotherapy
